

UPI Dispute Resolution and Auto-Reversal Guidelines

1. Failed Transactions

If a UPI transaction fails, the issuing bank must auto-reverse the amount.

2. Reversal Timelines (T+1 Rule)

The auto-reversal must be completed within $T + 1$ days (where T is the transaction date). If the bank fails to reverse the amount within $T + 1$ days, a penalty of Rs 100 per day of delay shall be paid to the customer.

4. Chargeback in UPI

In cases of unauthorized transactions or goods not delivered, a chargeback can be raised by the remitter bank via the NPCI dispute management system within 60 days.
